BLUE RX COMPLETE℠ FORMULARY

HOW TO READ THE FORMULARY

All drugs are listed by their generic names and/or most common proprietary (brand) name. Specific drug listings may be accessed either by generic (in lowercase) or brand name (in UPPERCASE) and by therapeutic drug tier. Any drug not found in this formulary listing, or any formulary updates published by Wellmark, shall be considered excluded from your benefit.

Once the product is located, the following items can be viewed:

**Drug Tier:** Drugs are categorized within tiers on the formulary. Each tier is assigned a cost, which is determined by the member’s pharmacy benefit plan.

<table>

<tr>
<td>Complete Plan 1 Tier</td>
</tr>
</tbody>
</table>

**Pharmacy Durable Medical Equipment (RxDME):** Devices available on this tier include select durable medical equipment (DME) that are used in conjunction with a drug and may be obtained from a pharmacy.

**Specialty Drugs:** Specialty drugs are high-cost injectable, infused, oral or inhaled drugs for the ongoing treatment of a chronic condition. These drugs generally require close supervision and monitoring of the patient’s drug therapy. Specialty drugs may be categorized within tiers on the formulary or as drugs covered under your medical benefit.

- **Specialty Drugs Preferred (SP-P):** Drugs in this category will process with the preferred specialty drug cost-share.
- **Specialty Drugs Non-Preferred (SP-NP):** Drugs in this category will process with the non-preferred specialty cost-share, and will have a higher cost share than preferred specialty drugs.
- **Specialty Medical (SP-M):** Drugs in this category will be covered under your medical benefit.

**Awaiting P&T Review (P&T):** FDA-approved drugs are not a covered benefit until they have been evaluated and approved by Wellmark’s Pharmacy & Therapeutics (P&T) Committee and subsequently added to the Wellmark Drug List.

**Drug Name:** This lists the generic name for the product (lowercase) OR the brand name or common reference name for the product (UPPERCASE).

**Requirements/Limits:** This lists Wellmark Pharmacy programs that may impact a particular drug or class of drugs and are described in the legend below.

**HEALTH CARE REFORM PREVENTIVE DRUGS**

Preventive drugs with an “A” or “B” rating in the current recommendations of the United States Preventive Services Task Force and immunizations as recommended by the Advisory Committee on Immunization Practices of the Centers for Disease Control and Prevention are not associated with any cost share for members on plans with this benefit.

A complete list of recommendations and guidelines related to preventive services can be found at [Healthcare.gov](https://Healthcare.gov). Recommended preventive items and services are subject to change and are subject to medical management.

**BENEFIT COVERAGE AND LIMITATIONS**

This printed formulary does not define benefit coverage and limitations. Many members have specific benefit inclusions, exclusions, copayments or a lack of coverage, which are not reflected in the Blue Rx Complete formulary. Members should contact their plan sponsor or Wellmark Customer Service at the number on the back of their ID card if they have questions regarding their coverage.
Please note that the formulary process is evolutionary and changes can occur throughout the year. The following topics may or may not be applicable depending on the parameters of your specific benefits.

FORMULARY EXCEPTION PROCESS
Drugs not included in this list shall be considered non-formulary and are NOT COVERED. In some instances, Wellmark will consider coverage exceptions. Coverage of non-formulary drugs may be requested by the health professional through an exception request for a non-formulary prescription drug (outlined below). Generally, one of the following guidelines must be documented in order for an exception to be granted:

- All covered formulary drugs on any tier will be ineffective; OR
- All covered formulary drugs on any tier have been ineffective; OR
- All covered formulary drugs on any tier would not be as effective as the non-formulary drug; OR
- All covered formulary drugs would have adverse effects

COMMON DRUG EXCLUSIONS
Due to benefit design parameters, some plan sponsors may choose to exclude certain drug classes. Prior authorization is generally not available for drugs that are specifically excluded by benefit design. Common excluded drugs may include, but are not limited to:

- Over-the-counter (OTC) drugs or their equivalents unless otherwise specified in the formulary listing.
- Drug products used for cosmetic purposes
- Experimental drug products, or any drug product used in an experimental manner
- Replacement of a lost or stolen drug
- Foreign drugs or drugs not approved by the United States Food & Drug Administration (FDA)

CONTACT INFORMATION
The Blue Rx Complete formulary is designed to assist physicians, members and other health care professionals in the selection of cost-effective treatments. Wellmark encourages your input and feedback on how we can assist in improving this document and the formulary management process.

Please direct your communications to:
Wellmark Blue Cross and Blue Shield
1331 Grand Avenue
P.O. Box 9232
Des Moines, IA 50306

In addition to the Blue Rx Complete formulary, other quick reference guides are available at Wellmark.com.

Wellmark Language Assistance

Discrimination is against the law
Wellmark Blue Cross and Blue Shield complies with applicable state and federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, sex, sexual orientation, or gender identity.

Wellmark provides:
- Free aids and services to people with disabilities so they may communicate effectively with us, such as:
  - Qualified sign language interpreters
  - Written information in other formats (large print, audio, accessible electronic formats, other formats)
- Free language services to people whose primary language is not English, such as:
  - Qualified interpreters
  - Information written in other languages

You have the right to get this information and help in your language for free. If you need these services, call 800-524-9242.
