

# BLUE RX BASIC<sup>SM</sup> FORMULARY

---

## HOW TO READ THE FORMULARY

All drugs are listed by their generic names and/or most common proprietary (brand) name. Specific drug listings may be accessed either by generic (in lowercase) or brand name (in UPPERCASE) and by therapeutic drug tier. Any drug not found in this formulary listing, or any formulary updates published by Wellmark, shall be considered excluded from your benefit.

Once the product is located, the following items can be viewed:

**Drug Tier:** Drugs are categorized within one tier on the formulary. Each tier is assigned a cost, which is determined by the member's pharmacy benefit plan. You may refer to the formulary as a guide to select the most appropriate drugs and associated cost share.

**Pharmacy Durable Medical Equipment (RxDME):** Devices available on this tier include select durable medical equipment (DME) that are used in conjunction with a drug and may be obtained from a pharmacy.

**Specialty Drugs:** Specialty drugs are high-cost injectable, infused, oral or inhaled drugs for the ongoing treatment of a chronic condition. These drugs generally require close supervision and monitoring of the patient's drug therapy. Specialty drugs may be categorized within tiers on the formulary or as drugs covered under your medical benefit.

- **Specialty Drugs Preferred (SP-P):** Drugs in this category will process with the preferred specialty drug cost-share.
- **Specialty Medical (SP-M):** Drugs in this category will be covered under your medical benefit.

**Awaiting P&T Review (P&T):** FDA-approved drugs are not a covered benefit until they have been evaluated and approved by Wellmark's Pharmacy & Therapeutics (P&T) Committee and subsequently added to the Wellmark Drug List.

**Drug Name:** This lists the generic name for the product (lowercase) OR the brand name or common reference name for the product (UPPERCASE).

**Requirements/Limits:** This lists Wellmark Pharmacy programs that may impact a particular drug or class of drugs and are described in the legend below.

## HEALTH CARE REFORM PREVENTIVE DRUGS

Preventive drugs with an "A" or "B" rating in the current recommendations of the United States Preventive Services Task Force and immunizations as recommended by the Advisory Committee on Immunization Practices of the Centers for Disease Control and Prevention are not associated with any cost share for members on plans with this benefit.

A complete list of recommendations and guidelines related to preventive services can be found at [Healthcare.gov](https://www.healthcare.gov). Recommended preventive items and services are subject to change and are subject to medical management.

## BENEFIT COVERAGE AND LIMITATIONS

This printed formulary does not define benefit coverage and limitations. Many members have specific benefit inclusions, exclusions, copayments or a lack of coverage, which are not reflected in the Blue Rx Basic formulary. Members should contact their plan sponsor or Wellmark Customer Service at the number on the back of their ID card if they have questions regarding their coverage. Please note that the formulary process is evolutionary and changes can occur throughout the year. The following topics may or may not be applicable depending on the parameters of your specific benefits.

## FORMULARY EXCEPTION PROCESS

Drugs not included in this list shall be considered non-formulary and are **NOT COVERED**. In some instances, Wellmark will consider coverage exceptions. Coverage of non-formulary drugs may be requested by the health professional through an exception request

for a non-formulary prescription drug (outlined below). Generally, one of the following guidelines must be documented in order for an exception to be granted:

- All covered formulary drugs on any tier will be ineffective; OR
- All covered formulary drugs on any tier have been ineffective; OR
- All covered formulary drugs on any tier would not be as effective as the non-formulary drug; OR
- All covered formulary drugs would have adverse effects.

### **COMMON DRUG EXCLUSIONS**

Due to benefit design parameters, some plan sponsors may choose to exclude certain drug classes. Prior authorization is generally not available for drugs that are specifically excluded by benefit design. Common excluded drugs may include, but are not limited to:

- Over-the-counter (OTC) drugs or their equivalents unless otherwise specified in the formulary listing.
- Drug products used for cosmetic purposes.
- Experimental drug products, or any drug product used in an experimental manner.
- Replacement of a lost or stolen drug.
- Foreign drugs or drugs not approved by the United States Food & Drug Administration (FDA).

### **CONTACT INFORMATION**

The Blue Rx Basic formulary is designed to assist physicians, members and other health care professionals in the selection of cost-effective treatments. Wellmark encourages your input and feedback on how we can assist in improving this document and the formulary management process.

LEGEND		
TIER	DESCRIPTION	
1	TIER 1	
2	SP-P	
3	RX-DME	
4	P&T	
5	SP-M	
TYPE	DESCRIPTION	
QL	Quantity Limit	There is a limit on the amount of this drug that is covered per prescription, or within a specific time frame. Amounts over the specified quantity limits are not a covered benefit unless Post-Quantity Limit Prior Authorization is available.
PA	Prior Authorization	This indicates a drug requires prior authorization before it is covered under your benefit. Your health care provider will need to contact our Pharmacy program at 800-600-8065. Hours of operation are Monday- Friday: 8 a.m. to 6 p.m. CST.
SBG	Specialty Biosimilars and Specialty Generics	This indicates a preferred biosimilar or generic specialty drug. Please read your enrollment information to see how specialty biosimilars and specialty generics are covered specific to your plan.
S	Specialty Drug	Specialty drugs are high-cost drugs for the ongoing treatment of a complex or rare condition. These drugs generally require close supervision and monitoring of the patient's drug therapy.
MN-PA	Medical Necessity Prior Authorization	This indicates a drug requires prior authorization before it is covered under your benefit. Your health care provider will need to contact our Pharmacy program at 800-600- 8065. Hours of operation are Monday - Friday: 8 a.m. to 6 p.m. CST. The intent of formulary medical necessity prior authorization is to confirm the appropriate coverage of the target drugs when evidence is provided documenting a trial and failure of the preferred formulary alternatives.
QLV	Quantity Limit (Varies)	A quantity limit on this drug limits the amount covered per prescription, or time period, and may vary based on the diagnosis. Amounts over the quantity limit are not a covered benefit unless Post Quantity Limit Prior Authorization is available.
PA-QL	Post-Quantity Limit Prior Authorization	This indicates a greater quantity may be covered under your benefit if Post-Quantity Limit Prior Authorization is obtained. Your health care provider will need to contact our Pharmacy program at 800-600-8065. Hours of operation are Monday-Friday: 8 a.m. to 6 p.m. CST

PAV	Prior Authorization Varies	This indicates a drug may require prior authorization before it is covered under your benefit and the requirement may vary based on the condition being treated, medication history, and the days supply on your prescription.
GA	Generic Available	Indicates a generic equivalent is available for a brand name drug. In most cases, when you purchase a brand name drug that has an FDA-approved A-rated generic equivalent, Wellmark will pay only what it would have paid for the equivalent generic drug. You will be responsible for your payment obligation for the equivalent generic drug and any remaining cost difference up to the maximum allowed fee for the brand name drug.
PV	Preventive	Preventive drugs are prescribed to prevent the occurrence of a disease or condition and are defined by the Internal Revenue Service. The preventive drug enhanced benefit is available on specific high deductible health plans. This is an optional benefit that waives the deductible for preventive drugs. Please read your enrollment information to see how preventive drugs are covered specific to your plan.
